Attachments: D5721-RevA.pdf

Hello,

I have some concerns with the C of C from Aircraft Spruce. The C of C is part of the packing slip which does not contain a part number on it. Also, any original certification or previous C of Cs should be with parts since Aircraft Spruce is a distributor.

We need confirmation that the parts meet the specifications required on the drawing (temperature rating).

Usually for parts like this there are expiry dates since there is an adhesive backing and I do not have any information on this either.

I cannot accept the C of C provided as it is.

Thank you,

Michelle Gagnon-Donovan

WAIVER OF LIABILITY AND INDEMNIFICATION AGREEMENT-Inasmuch as Aircraft Spruce & Specialty Company has no opportunity to supervise the installation, or maintenance of parts supplied by it, nor any opportunity to participate in the design or manufacture of the products it sells or of the various homebuilt and certificated aircraft in which its parts are utilized, the purchaser, by placing this order with Aircraft Spruce & Specialty Company and accepting the parts, agrees that all materials purchased will be used solely at purchaser's risk and that the purchaser will indemnify and hold Aircraft Spruce & Specialty Company, its owners and employees, free and harmless from all loss, liability, and damage resulting from claims brought by reason of any alleged failure or defect of any parts or parts supplied by Aircraft Spruce & Specialty Company. If this agreement is unacceptable to purchaser, the purchaser will immediately return in new condition all products listed on this invoice to Aircraft Spruce for refund of purchase price.

When returning merchandise:

- Please call Customer Service for an RMA number.
- Write the RMA number on each package.
- Fill in the information below and enclose this form with the package.
- Insure and ship to: Aircraft Spruce Canada
27 York Rd
Brantford, ON N3T 6H2
Attn: Customer Return

RETURN POLICY

Merchandise may be returned for credit or refund within 30 days from date of purchase if received in resaleable condition - packed in original manufacturer's box, complete with instructions and all components (if applicable). A copy of the original order showing purchase or information stating the invoice number and date of purchase, with reason for return must accompany the article. Do not mail purchase information in letter form under separate cover. A 15% restocking charge may be applicable to all merchandise returned to cover costs involved in processing the return. Do not return any products C.O.D. as it cannot be accepted by our warehouse. Call first for return authorization and instructions.

PRODUCT WARRANTY

In cooperation with the manufacturers we represent, Aircraft Spruce & Specialty Co. warrants for a period of one year (on most products) from the date of original purchase its products to be free from defects in material and workmanship. Aircraft Spruce & Specialty Co.'s obligation under this warranty is limited to repair or replacement of the purchased product only, and under no circumstances shall Aircraft Spruce & Specialty Co. be liable for any loss, damage, injury, cost of repair or consequential damages of any kind in connection with the sale, use or repair of any product purchased from Aircraft Spruce & Specialty Co.

Good day all, the requirements on the drawing are set out by engineering.
Therefore shelf life has to be determined by them too.

Cheers

Marcel

Subject: RE: Aircraft Spruce Canada

Updates:

1. Aircraft Spruce is not able to make modifications to the documentation their system generates – therefore unable to add the temperature rating that is splattered all over the packaging.
2. Aircraft Spruce's supplier of this heat barrier "Thermo-Tec High Performance Automotive Inc." estimates 3 year shelf life depending on conditions, but has nothing written/spec sheet to back that up. Copy of their CoC attached, which I will note says nothing about the temperature rating either.

We've purchased this 8 times in the last 18 months with current documentation being accepted. I understand if that is now to be changed, but for the type of product this is that our drawing calls out this specific part # I am not going to be able to find a supplier to provide shelf life because the actual manufacturer of it doesn't supply it.

I suggest like we do with a few other items with an adhesive back that suppliers are unclear on the exact shelf life, I suggest we put 1 year on it in Plex.

Let me know how we're proceeding.

Thanks,

Kim Guerin

Good Morning Serge & Patrick D,

Re: POHB047313 from Aircraft Spruce; work order 213851; part # D5721-1 – as per below QC21 is inquiring about additional information on the product to meet the specs of our drawing.

- Clearly the attached pictures show the temperature rating – are we good here Michelle?
- With regards to the adhesive backing / shelf life - do you recall there being 2 labels/stickers on top of each other when this product was QC'd? This is a label from Aircraft Spruce and from what I can gather from the supplier those labels would have the information we're trying to obtain, but the pictures attached taken from stores do not show those labels/stickers??

Thanks,
Kim

Subject: Aircraft Spruce Canada

Hello,

I have some concerns with the C of C from Aircraft Spruce. The C of C is part of the packing slip which does not contain a part number on it. Also, any original certification or previous C of Cs should be with parts since Aircraft Spruce is a distributor.

We need confirmation that the parts meet the specifications required on the drawing (temperature rating).

Usually for parts like this there are expiry dates since there is an adhesive backing and I do not have any information on this either.

I cannot accept the C of C provided as it is.

Thank you,

Michelle Gagnon-Donovan
